linkedin.com/in/mehedi-hasan-2859383b4

mehedi.pro.bd · Dhaka, Bangladesh

Software Engineer with **4+ years** across the full development life cycle, building **PHP / Laravel** and **Node.js / NestJS** web applications, **WordPress / WooCommerce** platforms, and **REST / event-driven APIs**. Recent work adds **Kafka / RabbitMQ** messaging, **Docker** containerisation, and **AI agent automation** — integrating **OpenAI**, **Claude** and **Gemini APIs**, and exploring multi-agent orchestration (**LangGraph**, **MCP**) and vector search (**PGVector**) for retrieval-augmented workflows. Also runs enterprise **IT operations** — networking, hardware, **Microsoft 365** administration, and **IT security (VAPT)**. Comfortable in **Agile** teams, strong on documentation, and quick to adopt new stacks.

PROFESSIONAL EXPERIENCE

Software Developer — Web Platforms & NGO ERP Jul 2026 – Present

SAWAB Bangladesh · Dhaka, Bangladesh

- Build and maintain SAWAB Bangladesh's public web platforms (sawabbd.org, sawabfoundation.org.bd) on **Node.js / React** — donation pipelines, bilingual (Bangla/English) content, and program pages for education, healthcare and WASH initiatives.
- Design and develop an **AI-native NGO ERP** — **NestJS** microservices, **Kafka** event streaming, **Redis**, **PGVector**-based retrieval and **LangGraph** multi-agent workflows — planned across **85+** modules for humanitarian program and donation management; currently in active development.

Software Developer & AI Technology Specialist Jan 2025 – Jun 2026

Jibika Intelligic Ltd. · Dhaka, Bangladesh

- Developed, tested and deployed **PHP / Laravel** and **WordPress** web applications across the full SDLC — custom themes, plugins, responsive UIs (**HTML5**, **CSS3**, **JavaScript**, **Bootstrap**) and **REST APIs** — for a diverse client base in an **Agile** delivery cycle.
- Integrated third-party and **LLM APIs** (**OpenAI**, **Claude**, **Gemini**) to automate content, research and reporting workflows, cutting manual effort by roughly **50%**.
- Designed and maintained relational databases (**MySQL / PostgreSQL**) — schema design, normalization, indexing, query optimization — and managed **Linux / cPanel** hosting, deployments, backups and uptime monitoring.
- Provided full-cycle **IT support**: hardware / software troubleshooting, network diagnostics, **Microsoft 365** and user-account administration, endpoint security hygiene and onboarding documentation.
- Managed social media channels, content calendars and campaign analytics; produced creatives in **Photoshop**, **Illustrator** and **Canva** and kept visual brand consistency across all digital channels.
- Authored technical documentation, product guides and **SOPs** for client demos and internal knowledge sharing.

Software Developer — ERP Technology

Jan 2024 – Dec 2024

Smart Software Limited · Dhaka, Bangladesh

- Built and demonstrated **PHP & JavaScript ERP** modules (**HRIS / Payroll**, **School Management**, **Hospital Management**) for prospective institutional clients; gathered requirements and prepared **SRS / BRD** and **UAT** documentation.
- Performed module testing, bug tracking and defect fixing throughout the SDLC and supported client onboarding, configuration and end-user training.
- Delivered day-to-day **IT support**, system debugging and hardware troubleshooting for **20+** concurrent users across departments.
- Designed banners, infographics and email templates in **Photoshop** and **Canva** and supported the media team with social-media post design and campaign coordination.

CORE COMPETENCIES

Languages

PHP (Core & OOP), **JavaScript** (ES6+) / **TypeScript**, **Python**, **SQL**, **HTML5**, **CSS3**; **C#** / **.NET Core** (working knowledge)

Frameworks & CMS

Laravel, **CodeIgniter**, **WordPress & WooCommerce**, **Node.js / Express**, **NestJS**, **React.js**, **Next.js**, **Vue.js**, **Vite**, **Bootstrap 5**, **Tailwind CSS**; **React Native / Flutter** (familiar)

Databases

MySQL, **PostgreSQL**, **MongoDB**, **Firebase**; **MS SQL Server**, **Oracle** (basic); schema design, normalization, query optimization, **ERD** modelling

APIs & AI Integration

RESTful & WebSocket APIs, **JSON**, **Postman**, payment-gateway integration; **OpenAI**, **Claude & Gemini APIs**, prompt engineering; multi-agent orchestration (**LangGraph**, **MCP**), vector search / **RAG** (**PGVector**), **FastAPI**, **Whisper** speech-to-text, **FFmpeg** (exploring)

DevOps, Cloud & Hosting

Git & GitHub, **CI/CD** pipelines, **Linux** (**Ubuntu**) administration, **cPanel / WHM**, **Apache & Nginx**, domain / **DNS / SSL**; **Docker**, **AWS EC2-S3**; **Kubernetes**, **Kafka / RabbitMQ**, **Redis**, **Prometheus & Grafana** (familiar)

IT Infrastructure & Support

Hardware & software troubleshooting, **LAN/WAN & TCP/IP**, router & switch configuration, **Wi-Fi**, structured cabling, **CCTV / NVR & ELV** systems, **IP-telephony** basics, **Active Directory & Microsoft 365 / Google Workspace** administration, **IT asset management**, backup & disaster recovery, helpdesk / ticketing

Information Security

Vulnerability Assessment & Penetration Testing (VAPT), **IT security policy & compliance**, access control & user provisioning, endpoint / antivirus management, secure data handling

Delivery & Analysis

Agile / Scrum, **SDLC**, requirement gathering, **SRS / BRD**, **UML & use-cases**, **UAT**; **QA** — test-case design, bug tracking, regression & **API testing**; technical documentation, **Jira / Trello / ClickUp**

Documentation & IT Executive

Aug 2022 – Dec 2023

HBIZZ Group Company · Karwan Bazar, Dhaka-1215, Bangladesh

- Provided IT support across hardware, software, networking and connectivity; maintained IT assets, user accounts and system documentation.
- Processed freight, air-logistics and export / import documentation to international trade standards and kept audit-ready trade records for regulatory compliance.
- Enforced data security through access control, secure document handling and scheduled system backups.
- Developed and maintained the corporate website (hbizz.com) on WordPress with cPanel hosting configuration and performance monitoring.

Voluntary Web Developer

2024 – Present

Tafseerul Quran Foundation (TQF) · Bangladesh · tqfbd.org

- Build and maintain the official TQF website (tqfbd.org) on WordPress — custom theme configuration, plugin management, security patching, performance optimisation and mobile-responsive layout — for a national non-profit audience.
- Collaborate with the TQF team on digital-outreach strategy and social-media integration.

KEY PROJECTS

AI-Native NGO ERP github.com/MehediHasan228/ai-native-ngo-erp

Humanitarian ERP prototype (NestJS microservices, Kafka event streaming, Redis, PGVector-based retrieval and LangGraph multi-agent workflows) planned across 85+ modules; in active development.

SAWAB Bangladesh Platform sawabbd.org

Production NGO portal for education, healthcare, WASH and humanitarian-aid programs on Node.js 22 / PostgreSQL / Docker, with donation pipelines and a bilingual (Bangla/English) architecture.

SAWAB Foundation Portal sawabfoundation.org.bd

Charity and zakat platform (React 18, TypeScript, Tailwind CSS) with an automated zakat calculator, relief tracking and instant donation integration.

AI Video Making Engine github.com/MehediHasan228/ai-video-making-engine

FastAPI + Next.js pipeline that turns long-form video/podcasts into 9:16 short clips using Whisper speech-to-text, Bengali NLP and a virality-scoring model, with FFmpeg for rendering.

Savora — AI Meal & Inventory Management github.com/MehediHasan228/Savora

Hostel mess-management app (React 19, Vite, Firebase, Capacitor) for meal planning, pantry inventory tracking, recipe suggestions and grocery optimisation.
